

KIC Carrier Advantages

- Facilitates reflow profiling
- Works on edge conveyors with and without center board support
- Profile low clearance ovens
- Accommodates extra wide conveyor rails

Profiler Carrier for Edge Conveyor Reflow Ovens

The award winning KIC profilers provide accurate and quick profiling as well as optimum oven set up.

The KIC Carrier™ further assists the task of profiling by securing the profiler during the run through standard or low clearance ovens.

The KIC Carrier accomodates a variety of reflow process types, including:

- Ovens with and without center board support hardware
- Ovens with extra-wide rails up to 379mm
- Ovens with edge rail conveyors only
- Ovens with low vertical clearance
